

BGRD AND CANNABIS LEGALIZATION

INFO SHEET

SUMMARY

- No cannabis or related paraphernalia permitted on any BGRD property or at any BGRD activity
 - No impairment of students or staff on any BGRD property or at any BGRD activity
 - BGRD and its schools to deal with violations in accordance with established disciplinary procedures
-

With the recreational use of cannabis now legal in Canada, the same restrictions that are in place at all BGRD facilities regarding the use of substances such as tobacco, alcohol, and drugs will apply to the use of cannabis products.

Per *Administrative Procedure 162*, **smoking, vaping or consuming tobacco and cannabis is prohibited in any form**. This applies to all Division premises, vehicles, buses, and any school-sponsored activities. Violation by any student or staff member will be dealt with according to the disciplinary procedures established at each site.

Procedures for students with a prescription of cannabis for medical needs are outlined in *Administrative Procedure 316*.

As always, our staff will be diligent in identifying and addressing the presence and/or use of substances prohibited by BGRD on all campuses, as well as the impairment of students and staff.
