SCHOOL JURISDICTION'S RESPONSIBILITY FOR SCHOOL AND TRANSPORTATION FEES POLICY AND REPORTING

The school and transportation fees policy of: Black Gold Regional Division No. 18
presented to Alberta Education has been prepared by school jurisdiction management which has responsibility for its preparation, integrity and objectivity.

Board of Trustees Responsibility

The ultimate responsibility for the fees and costs lies with the Board of Trustees. The Board reviewed the fee policy and fee schedule with management prior to release to the Minister.

Declaration of Management and Board Chair

To the best of our knowledge and belief, these documents meet all requirements as set out in the *School Act as well as the School Fees and Costs Regulation, and School Transportation Regulation*.

Fee Category & Definition

Transportation fees: Amounts charged for transportation to and from school in accordance with the School Transportation Regulation (excluding field trips - see Activity fees, Non-curricular travel or Extracurricular fees below). This includes but is not limited to transportation fees for ineligible students, students attending a school of choice, non-resident students, transportation to a secondary address, yard service and the sale of public transit bus passes to qualifying students.

Basic instruction supplies (Instructional supplies & materials): "School Fees and Costs Regulation" has eliminated fees associated with what was previously termed basic instructional supplies, in accordance with Section 3(2) for public, separate and Francophone school jurisdictions. However, for the 2018/19 school year, these fees are still permitted for charter schools. Please note that in 2017/18 bulk school supply purchases were classified under this category but please classify these purchases under "other sales & services" provided that parents have the option of purchasing these items elsewhere.

Technology user fees: Amounts charged for use or rental of computers, iPads, or other electronic devices; fees assessed to cover the cost of software applications or infrastructure should also be classified here.

Alternative program fees: Amounts charged under Section 21(4) of the School Act, a program (not an individual course) that emphasizes a specific culture, religion, or subject matter or uses a particular teaching philosophy, including sports-related academies. Fees classified here are in addition to fees charged to students who are not in an alternative program. Avoid using blanket fees like "registration fee" or "application fee" since this does not describe how fees are used and will be difficult to cost for financial statement purposes.

Fees for optional courses: Additional amounts charged to parents for student enrolment in non-core course options that require special equipment, supplies, or transportation, such as band, fine arts, Knowledge and Employability, or Career and Technology Studies;

Non-curricular travel: Travel, accommodation, & admission associated with extended (overnight) optional non- curriculum travel for arts, athletic events, international travel;

Early Childhood Services: Full day or progressive Early Childhood Services programs that provide greater hours of instruction than required (475 hours per year). Additional fees related to funded half-day kindergarten must be classified to other categories, as applicable;

Extracurricular fees: Fees from clubs, sports teams, intramurals, or other programs designed to broaden scholastic experience. Includes charges for materials, activities, and travel associated with the club/team, etc. Please include all possible per student fees, including the travel & competition fees for successful athletics or arts teams & students;

Activity fees: Transportation, admission, accommodation, and other charges for field trips or special events (including in-school clinicians & presenters) usually associated with curriculum. Additional examples include fees to cover costs associated with swimming and inline skating. Lunch supervision & noon hour activity fees: Fees charged to students for use of supervised lunchroom facilities as well as the cost of any corresponding activities occurring during the lunch period.

Non curricular goods and services: Fees charged to parents in exchange for goods or services common to most students or a cohort within the population, including locker rental, locks, student ID, uniforms, gym strip, library, agendas, student union, insurance, graduation ceremony fees charged to all graduating students, parent- teacher associations, and fitness fees not associated with curriculum.,

Other fees to enhance education: Fees related to provide additional support to students toward educational programs not described or covered by the preceding fee categories.

Other fees: Aside from **CAUTION FEES**, use of this category should be rare as most fees should be categorized as above. Additional details should be disclosed in the "Other Comments" column, if required. **Please ensure that fees in this category are not defined in other categories.** *For CAUTION FEES, funds should be treated as deferred revenue in your records and refunded to students once books and supplies are returned in satisfactory condition. Caution Fees retained damaged books and supplies should be treated as SALES & SERVICE rather than fees.*
