

Black Gold School playgrounds closed to avoid spread of COVID-19

DATE: March 26, 2020

Black Gold School playgrounds closed to avoid spread of COVID-19

Please be advised that all Black Gold School playgrounds and play structures are closed until further notice to help stop the spread of COVID-19. These are high-touch gathering places that make it difficult to enforce public health's social distancing requirement and the public is to avoid them.

The green spaces are still available and the usage of these spaces are still permitted as long as responsible social distancing can be adhered to.

The public's cooperation in staying off all structures and patience is appreciated at this time.
