The core purpose of Black Gold School Division is to 'Inspire Success.' Our core values are student-centred learning, relationships, a safe, supportive environment, passion and managing resources responsibly.

Our main task is to help provide the highest possible standard of educational opportunities for students within our Division through the use of available resources. It is essential to help promote the existence of school environments which instill a love of life-long learning, a striving for excellence, the development of a healthy life style, and a positive self-image.

Visit www.blackgold.ca for further information on Transportation, our Division and Schools.

SAFE AT SCHOOL

Do you know what to do?

When a school is faced with an emergency, the Incident Commander (usually the principal) will assess the situation and implement the appropriate emergency protocol. The emergency protocols are listed below.

<p>Lock-Down</p>	<p>Lock-Down is used when there is a threat or potential threat of violence to students and/or staff INSIDE the school. During a Lock-Down, all doors within the school are locked. Students and staff must respond very quickly to a Lock-Down command to get to a safe location before doors are locked. No one is permitted in or out of any area once it has been locked.</p> <p>Only law enforcement is permitted access to the building during a Lock-Down. No one is allowed in or out of a locked room, under any circumstance, until the Incident Commander issues the “All-Clear”. Doors will be unlocked by the Incident Commander and/or police.</p>
<p>Hold and Secure</p>	<p>Hold and Secure is used when there is a threat or potential threat of violence to students and/or staff OUTSIDE the school. During a Hold and Secure, all entrance doors to the school are locked, with no one permitted in or out of the building. Movement is permitted inside the school, and inside activities can continue.</p> <p>No one, other than law enforcement, is permitted access to the building until the Hold and Secure has been cleared.</p>
<p>Shelter-in-Place</p>	<p>Shelter-in-Place is used when there is NO THREAT OF VIOLENCE but directing and controlling movement inside the school is prudent. A Shelter-in-Place maybe be called for any of the following reasons: an environmental emergency, severe weather, student, or staff requiring first aid/medical/focused attention.</p> <p>During a Shelter-in-Place, students and staff retreat to classrooms/safe zones to seek shelter or simply clear the hallways, allowing for both privacy of a student requiring attention and unrestricted access for emergency responders. This protocol may or may not include having students or staff who are outdoors come back into the school. Doors are not locked during this protocol. Students will not be released or dismissed until the situation has been resolved.</p>
<p>Evacuation</p>	<p>Evacuation is used when there is possible danger INSIDE the school, (no threat of violence) and it is safer to be outside the school than inside eg: fire, gas leak. This may mean only going outside and away from the building until it is safe to re-enter the school; in other cases, students and staff may need to go to an evacuation center.</p> <p>Parents will be informed of the alternate location through the school’s Crisis Notification Network.</p>
<p>Dismissal</p>	<p>If necessary, a Controlled Student Release Procedure will be used to release students to an authorized emergency contact.</p>
